IRWIN® Record®

LEADER AND CHAIN PIPE WRENCHES

The design, materials and manufacturing practices employed by Record ensure that these pipe wrenches will meet the needs of the most demanding end user for strength, reliability and value.

Leader wrenches

- This heavy duty wrench is used extensively in the oil, gas and civil engineering industries.
- The frame and handle are a one piece ductile iron casting which is very strong and guaranteed against breakage.
- Both jaws are replaceable and made from drop-forged steel with hardened and tempered teeth. The adjusting nut is also hardened and tempered.

Type No.	Length when open		Pipe capacity		Approx. weight	
	inch	mm	nom bore in	o.d. mm	lbs	kgs
350/18	18	450	2.5	76	6	2.7
350/24	24	600	3	90	10	4.5
350/36	36	900	5	140	20	9.1
350/48	48	1219	6	165	37	16.8

Chain Pipe Wrenches

- These wrenches can be used in confined spaces where the pipe is in a trench, against a wall or in a nest of piping. The jaws are made from drop forged steel which is hardened and tempered.
- Only the front teeth bear on the pipe so the jaws can be reversed when they become worn, doubling the life of the tool.

Cat No.	Capacity	Capacity	O/A Length		Approx. weight	
	nom in	o.d. mm	in	mm	lbs	kgs
231½	5/16 - 2	61	14	350	3	1.38
232½	5/16 - 3	90	21½	546	6½	3.03
233C	½ - 4	115	36½	930	14	6.4
234C	1 - 8	220	51	1295	30	13.6
235C	2 - 12	330	64½	1638	50½	23
